### High Prices Offered Opportunity to Convert Paper Profits Into Cash.

mixed tendency to-day, gains and losses showing irregularity during the josses showing irregularity during the progress of the trading. This mixed movement did not, however, obscure the absorptive power of the market and the effective character of the new demand which has come into the market in the last few days. The high level at which prices were started today added to the sharp advances scored yesterday, and combined with the material broadening from the participation from miscellaneous outside the material broadening from the par-ticipation from miscellaneous outside sources, offering so advantageous an opportunity to convert paper profits into cash that it was taken advantage of on a very large scale by previous purchasers. The action of the market in the last few days had its effect in bringing in some increase of buying orders at the outset, but the concen-trated character of the dealings and the concerted operations for the ad-vance gave evidence of an organized speculative party at work in the mar-ket.

The basis for the movement continued

ket.

The basis for the movement continued to be the conviction that the bottom of the business depression had been touched and that improvement is to follow. Some of the day's news confirmed the views of an upward trend of business. The public profession of confidence by E. H. Harriman to this effect was one of the items of this news. So, also, was the announcement that the Ensley Steel Plant of the Tennessee Coal and Iron Company had not been shut down on April 1, as had been previously determined, owing to the receipt of enough new orders to extend the active period of operations. The action of the United States Steel in the later market in its aggressive advance through enormous sales made at 50 to a top price of 51 was of material sentimental effect on the whole market. News from Washington of formidable opposition forming to some of the proposed tariff reductions seemed to be accepted with equanimity, if not with satisfaction. The market was strongest and most active at the close of the day.

Bonds were firm. Total sales, par The basis for the movement continued

of the day. Bonds were firm. Total sales, par

United States bonds were unchanged on call.

# DOES NOT DELAY

City Attorney Holds That Committee May Make Temporary Assignments.

TO RUN ONLY IN SUMMER

By Cutting of Expense in Winter Appropriation Will Afford Better Equipment.

Contrary to the statements in both afternoon papers yesterday, the opinion of the City Attorney will not delay the opening of the playgrounds, for which provision was made in the annual budget. Mr. Pollard has given a written opinion to Colonel A. S. Buford, Jr., of the Committee on Grounds and Buildings, in regard to the employment of caretakers or keepers of the various playgrounds, holding in substance that in order to create positions and fix permanent salaries, to be paid out of the general treasury, it will be necessary to have a specific ordinance passed by the Council. In this instance, however, an ordinance has been passed for the equipment and mantenance of playgrounds, and \$7,300 appropriated and put to the credit of the Committee on Grounds and Buildings.

The City Attorney holds that the

appropriated and put to the credit of the Committee on Grounds and Buildings.

The City Attorney holds that the committee without creating permanent positions, may employ for a limited time keepers to manage and supervise the expense of such employment does not exceed the sum mendoned in the ordinance for the specific playground.

Committee May Acquire Land.

Mr. Pollard further holds that the committee may acquire without further proceedings the lot of land described for playground "A," provided the cost does not exceed that mentioned in the estimate; and that the committee may rent other grounds and grade and improve them out of the committee may rent other grounds and grade and improve them out of the appropriation is not exceeded.

Advocates of the playgrounds say that the opinion of the City Attorney will in no way hamper the opening of the grounds, but will rather facilitate the movement. It is proposed to keep the grounds open only during the summer months, and members of the committee therefore held that it would be useless to create permanent positions of keeper, with salary continuing throughout the year, regardless of the committee will therefore proceed to assign the position of keeper and supervisor for the six summer months of 1909, at a salary to be fixed for each playground for which there is a sufficient appropriation to cover the expense.

Alderman Gunst and Councilman Don

for each plays, on the cover is a sufficient appropriation to cover the expense.

Election of Keepers.

Alderman Gunst and Councilman Don Leavy, in the Committee on Grounds and Buildings, last night, were anxious to go at once into the election of keepers. Mr. Tucker said that the operation of playgrounds was in itself more important than the filling of fivicity jobs, and carried his point, the matter being referred to a subcommittee to prepare and recommend definite plan by which each play ground can be equipped and operate within the specific appropriation, in cluding the pay to the keeper.

A superior tonic, appetizer and stimulant for the exhausted, overworked
system is one-half pint good whiskey,
to which should be added one ounce
compound fluid balmwort and one ounce
compound syrup sarsaparilla. As an
appetizer take a tablespoonful hefore
ald the house was destroyed. The loss
the burgiars.

Any druggist can mix it quickly.

Three Women Would Have Taken Remains Now Claimed by German Mother.

Street, Dresden, Germany, in a letter re-ceived by Chief of Police Werner yesterday, states that her son, Alexander, is the young man killed near the New Pumphouse mor than a month ago. She asks that a written

man killed near the New Pumphouse more than a month ago. She asks that a written statement of particulars be mailed hey, and that she be given a copy of the death certificate.

From letters found on Krause's body it was lengued that his mother lived in Germany, Major Werner notified her of the inding of the body after relatives in Cotestwille, Pa., iccused to take charge of it. The remains write held for more than three weeks before Coroner Taylor would give his permission for the internent.

It is a singular circumstance that while the body, the head of which had been entirely severed, was being held at the undertaker's, at least three women identified it. One claimant was a woman on Church Hill, who afterwards learned that her son was alive and at work in Washington. Coroner Taylor was so firmly of the opinion that the remains were those of young Krause that he refused to turn them over.

Following is the text of the letter received, which finally settles the question of identity:

"In answer to your letter, I am going to

tive answer to your letter, I am going to any that the "Alexander Krause" was my son. I am very sorrowful that he was so unfortunate to be run over by a train. Will you be so kind and tell me the particulars of the accident, also send his letters to me. "All his other things may be kept in America, because I think it too expensive to have them sent over."

Old Counterfeiter is Arrested by Chiet Reynolds in Newport News.

[Special to The Times-Dispatch.]

NEWPORT NEWS. VA., April 1.—
Samuel W. Smith, sixty-three years old, who has served two terms in Federal prisons for counterfeiting, was arrested here by Chief of Police Reynolds to-night on the same charge. Three sets of brass dies for half-dollars and a number of coins made of block tin were found concealed in, the flooring of the old man's sewing machine repair shop. Unfinished dies for dollars were also found. The prisoner admits his guilt, but says he had "shoved" none of the coins. He intended, he says, sending them to Canada to be disposed of. Pifteen years ago Smith went to Moundsville, W. Va., from here for two years, and in 1902 he went to Atlanta for five years. His aged mother lives in Maine.
